I added the access code for the call as well as an agenda to somewhat guide our discussions.

Thanks,

Mike

I want to get together to discuss how we can move forward with these tests and how this information will be used for the design. In addition to that, based on our meeting with VDEQ yesterday, sampling will also be needed for Dominion to characterize this effluent for discharge. Please invite anyone else who may need to be a part of this conversation.

Thanks,

Mike
